Project Building Applications

Group 2

Aizaz Ahsan, Cosmin Ilie, Dewi Becu, Gabrian Chipev, Liviya Grigorova

Roles

- Aizaz Ahsan: Management
- Cosmin Ilie: Login, table overview
- Dewi Becu: Payment
- Gabrian Chipev: Order view
- Liviya Grigorova: Bar and kitchen view

Note

Some DAO classes are separated by who has done what.

For example, the PaymentDAO has a lot of other methods. This is because Dewi needed to get data from other tables (aside from the payment table) from the database.
